

## Did you know?

- The top three causes of 1998 farm-related injuries in Iowa were machinery (26 percent of all injuries), animals (20 percent), and tractors (12 percent). However, the severity of these injuries differs. Only 11 percent of injuries caused by animals resulted in hospitalization while 15 percent of injuries involving machinery and 27 percent of injuries involving tractors lead to treatment.
- Acute chemical injury accounted for one percent of the total reported agricultural injuries in 1998.
- Tractors remain the number one killer of Iowa farmers with 14 deaths reported. Other types of machinery caused nine deaths.
- Youth age 19 and younger made up 17 percent of the total number of farm-related injuries. Fifty-six percent of the 293 injuries to youth were work-related. Five children under age 14 died as a result of farm-related injuries.

## 1998 Iowa Farm Injury and Fatality Data by County

Co. No.	County	Hospitalized	Not hospitalized	Total injuries	Engaged in production	Present during production	Total fatalities	Hospitalized fatalities	Non-hospitalized fatalities

Based on information from the Iowa Department of Public Health and prepared by Charles Schwab, extension safety specialist, and Laura Miller, Safe Farm editor. Design by Valerie King.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, gender, religion, age, disability, political beliefs, sexual orientation, and marital or family status. (Not all prohibited bases apply to all programs.) Many materials can be made available in alternative formats for ADA clients. To file a complaint of discrimination, write USDA, Office of Civil

Rights, Room 326-W, Whitten Building, 14th and Independence Avenue, SW, Washington, DC 20250-9410 or call 202-720-5964. Issued in furtherance of Cooperative Extension work, Acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture. Stanley R. Johnson, director, Cooperative Extension Service, Iowa State University of Science and Technology, Ames, Iowa.

## For more information

Contact your Iowa State University Extension office for printed materials, displays, and other educational resources. Ask for a free copy of *Safety Resources for Your Farm and Home*, Pm-1539, which lists various resources that are available.

Farm safety materials also are on the World Wide Web at <<http://www.ae.iastate.edu/Safety.htm>>. This site has a contact list of people hosting farm safety day camps in Iowa and locations of the nearest tractor and machinery certification program. Also check the site to get reproducible copies of the Safe Farm publication series and information about ISU Extension's safety displays available for checkout or rental.

Safe Farm is an Iowa State University Extension project helping to make Iowa farms a safer place to work and live.

Check the World Wide Web at <<http://www.ae.iastate.edu/Safety.htm>> for more safety information.
