

Youth and 4-H

Market Animal Worksheet Experienced

Name: _____

Project: _____ For year: _____

Instructions: This worksheet should help you keep records of your 4-H market animal project. Use a separate sheet for each kind of project—market beef, market hogs, and/or market lambs.

My project began with the following animals:

Date	Description (include tag # or eartnotch)	\$/lb. (cost ÷ beginning weight)	Beginning weight	Cost or value
Total weight [1] and cost [2]			[1]	[2] \$

During the year the following animals died:

Date	ID	Estimated weight	Estimated value	Cause

IOWA STATE UNIVERSITY
Extension and Outreach

This institution is an equal opportunity provider. For the full non-discrimination statement or accommodation inquiries, go to www.extension.iastate.edu/diversity/ext.

Record of Expenses

My feed record is (include feed grown on family farm):

Date purchased	Type of feed (grain, mix, hay, supplement, pasture, silage)	\$/lb (total cost ÷ pounds)	Pounds	Total cost
Total pounds [3] and feed cost [4]			[3]	[4]

My other expenses (veterinarian, bedding, insurance, show supplies and fees, interest, etc.) are:

Date	Item or expense	Cost
Total cost		\$ [5]

Record of Income

During the year I sold the following animals:

Date sold	Description (include tag # or earnotch)	\$/lb (net sale ÷ final weight)	Final weight	Net sale amount of check
Total weight [6] and value of animals [7] sold			[6]	[7] \$

Listed below are the animal I still own at the end of the program year:

Date	Description (include tag # or earnotch)	\$/lb (est. total value ÷ weight)	Weight	Estimated total value
Total weight [8] and value [9] of animals on hand			[8]	[9] \$

Other income (premiums, wool, etc.) I received:

Date	Item	Income
Total other income		[10] \$

Summary

Profit or Loss Statement

Total Expenses

Value of animals at beginning of my project (From [2] on pg 1) _____

Feed cost (From [4] on pg 2) _____

Other expenses (From [5] on pg 2) _____

Total expenses [11]

Total Income

Value of animals sold (From [7] on pg 3) _____

Value of animals on hand at end (From [9] on pg 3) _____

Other income [10] _____

Total income [12]

Total expenses [11] _____

Profit or Loss ([12] – [11])

Gain Records**

Description (include tag # or earnotch)	Col 1 Date of beginning wt./*birth date	Col 2 Beginning weight	Col 3 Date of ending wt.	Col 4 Final weight	Col 5 Total gain	Col 6 No. of days on feed/ *days of age	Col 7 ADG or WDA
Total of total gain					[13]		

**If you have more than six animals, continue this Gain Records section on another page so you have a line for each animal.

*Use this formula to calculate average daily gain (ADG):

- a) total gain = final weight minus beginning weight (Col 2 – Col 4 = Col 5)
- b) the number of days on feed = the number of days between the date of beginning weight and the date of ending weight (Use a calendar to count number of days between Col 1 and Col 3, number of days = Col 7.)
- c) ADG = total gain divided by the number of days on feed (Col 5 ÷ Col 6 = Col 7)

*Use this formula to calculate weight per day of age (WDA):

Weight per day of age (WDA) should be calculated for animals that do not have beginning weight recorded.

- a) days of age – the number of days between the date of birth and the date of ending weight (Use a calendar to count number of days between Col 1 and Col 3, number of days = Col 6.)
- b) WDA = final weight divided by the number of days of age (Col 4 ÷ Col 6 = Col 7)

Use this formula to calculate feed efficiency: [3] ÷ [13] = Feed Efficiency

Feed Efficiency
